METAL JIG

AFTER BURNER MINI

NEW

L'AFTER BURNER MINI est un casting jig léger qui a été entièrement repensé pour offrir plus de stabilité en vol comme en nage, afin de gagner en performance. Son nouveau montage avec triple arrière et assist hook avant à tinsel renforce son attractivité et améliore le taux de ferrage.

METAL JIG

AFTER BURNER

NEW

Cette version du casting jig AFTER BURNER a été repensée pour optimiser la distance de lancer, la nage et la posture de descente, en jigging du bord. Sa forme stable en vol et sa descente irrégulière stimulent les poissons à distance, tandis que sa tête permet de maintenir efficacement la profondeur ciblée.

RUNWAY TURBO SLS TUNED

NEW

Le RUNWAY TURBO SLS TUNED est conçu pour le Super Light Shore Jigging (SLS) du bord, avec une efficacité renforcée sur les petits et moyens poissons migrateurs en récupération rapide. Son hameçon triple arrière assure un ferrage fiable, même avec un matériel léger.

SCRAMBLE TURBO SLJ

NEW

Le SCRAMBLE TURBO SLJ est un jig métallique dédié au Super Light Jigging (SLJ), conçu pour une descente rapide et papillonnante qui attire les poissons à courte distance. Sa nage oscillante puissante, idéale en faible profondeur ou près de la surface, déclenche l'instinct de prédation et complète efficacement les leurres de pêche verticale.

METAL JIG

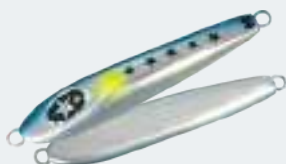

NEW

SCRAMBLE BABY FLARE SLJ

La silhouette élancée du SCRAMBLE BABY FLARE imite subtilement les poissons-fourrages et se prête parfaitement au lancer comme au Super Light Jigging (SLJ). Son hameçon assist lumineux et sa nage oscillante, glissante ou ondulante à la descente déclenchent efficacement les touches.

TAI RUBBER

TAI-RABA SCRAMBLE EGG

Le TAI-RABA SCRAMBLE EGG est un madai jig coulissant en forme d'œuf, ce qui lui permet de couler rapidement. Il résiste aux courants et permet d'atteindre précisément la zone de pêche avec une facilité et contrôle. Ses rainures génèrent des vibrations attractives dans la jupe et l'attache, déclenchant efficacement les touches de sparidés.
